Ninth Annual Exchange Edition

European Poor Found Freedom In America

by Bob D. Craig

(Editor's Note — The author is a member of the American Forces in Germany. He has done considerable research work while there. Another of his articles will be published in an early edition of this magazine.)

The immigration of settlers to America from the Pfalz can be broken down into two main groups — the Mennonites from Switzerland and the native Pfalzer.

The first section we will deal with will be the Mennonites. Our story begins in Switzerland where long before the Reformation, the Swiss Separatists were persecuted by the Roman Catholic Church because of their belief and practice in a free Church disassociated from the priesthood and political authority of the Catholic Church in Rome. This persecution, especially in Bern reached its height during the period 1670-1720, and during this time most of the Mennonites were driven from their beloved homeland. Many of the exiles from Bern — individually and with their families — settled along the beautiful Rhine Valley in Western Germany where these small Mennonite communities had existed since the early 16th Century. The first large emigration took place in 1671, when 700 were allowed to settle along this valley to help build it up after the devastation of the 30 Years War.

The Mennonites looked on this settlement as temporary with a goal in mind to return to their homeland of Switzerland. However, those who risked returning, found the persecution even more severe. In the Pfalz (Palatinate) the Mennonites were tolerated even with fewer rights than the Jews, because they refused to adhere to any of the three

How To Profit Most Out Of This Edition

Each year new subscribers are added to our subscription list. For their sake it becomes necessary to explain in detail how to use the information contained in the Annual Exchange Edition.

This particular number of the Genealogical Helper contains three particular sections: 1958 Directory of Genealogists, 1958 Genealogists Exchange, and 1958 County Directory of Genealogists.

In the first section, arranged in alphabetic order, are the registrations of researchers from numerous localities. Each registration begins with the name and address of the registrant. Then follow the names and personal information about individuals whose genealogy is being sought.

The surnames of the persons enumerated in all of the registrations are arranged alphabetically in the second section — the 1958 Genealogists Exchange. After each name appears a letter-and-numeral designation indicating the particular registration in which the name is found.

The best method of using the Annual Exchange Edition is to check carefully the names listed in the Exchange section. When you find the names in which you are interested, the letter-numeral dseignation refer you to the name and address of the individual who is also interested in that person. By writing him you may receive the information you desire.

It is always well to treat others as you would like to be treated. Therefore you should include in your letter a self-addressed stamped envelope to bring the information to you. Don't forget that letters require more postage now than they did before August 1, 1958.

The third and smallest section is the 1958 County Directory of Genealogists. What good is the information it con-

Largest Number Of Researchers Are Registered

By Gunnar Rasmuson

For nine consecutive years the Annual Exchange Edition of THE GENEALOGICAL HELPER has now been issued by The Everton Publishers. The fact that the ninth edition, the present, contains more registrations than any of the previous editions, is evidence of the great assistance researchers all over the nation and Canada have received over the years from this publication.

The 1958 Exchange Edition contains 1,860 registrations from 723 counties. Among the registrants are 111 professional researchers. The registrations represent an increase of slightly more than 34 per cent above those of any other Exchange Edition. Last year there were 1,372 registrations from 579 counties.

This year, for the first time, people living in every state in the union are represented. Although three of the states — Maine, North Dakota and Rhode Island — have only one registrant each, still they have representation. Alaska, Hawaii, the District of Columbia and the Canal Zone also have representation. From outside the United States, fifteen of the registrants come from Canada and one from Austria.

Good Results Obtained

Researchers in almost every section of the country testify of the wonderful results that have come to them in the past through this edition. Relatives living far apart from each other have been brought together through these numbers. Many of them had never known the others until their registrations appeared in the Annual Exchange Edition.

Recently we heard of two first cousins, each unknown to the other although less than sixty miles separated their homes, who became acquainted through the Exchange Edition. Each enlarged his genealogical records by tens of thousands

of names through the acquaintance. Others have also had remarkable success, although not quite so phenomenal.

No Discouragement

It stands to reason that a large majority of the registrants attain a degree of success otherwise they would not continue year after year to use THE GENEALOGICAL HELPER in their research efforts. Just because success is not immediate, the true researcher does not permit himself to become discouraged. It has happened many times in the past that questions have been answered several years after their insertion in the magazine. The genealogical "bug" is never at rest. Every year sees new hordes bitten by the desire to learn something about their ancestors. Most of those "afflicted" are enthusiastic in their devotion. They have genealogy for breakfast, genealogy for lunch, and genealogy for dinner. They scan every bit of information. They relish old information perhaps with more zest than the new. They learn early that genealogical information is always fresh, always valuable. It never loses its savor.

Good Distribution

Naturally the main reason for "the pulling power" of this magazine lies in its large circulation. It is distributed in every state in the union. And the Exchange Edition has nearly forty per cent larger circulation than any of the other issues.

We have reasons to believee that no other genealogical publication in the United States — and in the whole world, for that matter — has as large a circulation as The Genealogical Helper. We were convinced of that fact a year or two ago by one of our most consistent advertisers when he volunteered the information that his advertisements in The Genealogical Helper brought him from six to eight times the number of responses received from other similar publications.

Friendships that have come to The Genealogical Helper readers through correspondence with other subscribers can be counted in the thousands.

Many Counties Represented

Since only a minority of the population are genealogically minded, it would be too much to expect a heavy representation from all parts of the nation. Still it is satisfying, indeed, to see Texas represented by people from 57 counties, California from 37, Illinois 36, Ohio 28, Indiana and Mississippi 27 each, Iowa and Kentucky 26 each, Kansas and New York 25 each, Idaho and North Carolina 24 each, Michigan 21, Missouri 20, Pennsylvania and Utah 19 each, Oregon 17, Louisiana and Virginia 16 each, Montana, Oklahoma and Washington 15 each, Georgia 14, Alabama and Florida 13 each, Arkansas, Minnesota and Tennessee 12 each, Colorado and Nebraska 11 each, Arizona and New Mexico 10 each, Maryland and New Jersey nine each, Massachusetts, Wisconsin and Wyoming six counties each, Connecticut, Nevada, South Carolina and West Virginia five each, Delaware, New Hampshire and South Dakota three each, Vermont two counties, and Maine, North Dakota and Rhode Island one county each.

California Leads States

The largest number of individual registrants were from California, 294. Texas had 168 registrants, Utah 97, Oregon 71, Illinois 70, Arizona 63, Idaho 61, Ohio 55, Kansas and New York 52 each, Michigan and Missouri 51 each, Mississippi and Washington 44 each, Indiana 42, Louisiana 39, Kentucky 38, Oklahoma 37, Iowa and Pennsylvania 34 each, the District of Columbia 30, Georgia 29, Florida and North Carolina 28 each, Virginia 26, Colorado 25, Montana 23, Arkansas and Tennessee 22 each, Alabama and New Jersey 20 each, New Mexico 19, Nebraska 18, Wyoming 17, Maryland 16, Minnesota and Canada 15 each, Nevada 13, Connecticut 12, Massachusetts and South Carolina 11 each, West Virginia 10, Wisconsin eight, Delaware seven, Hawaii four, New Hampshire and South Dakota three, Vermont two, Alaska, Canal Zone, Maine, North Dakota, Rhode Island, and Austria one each.

Among the registrants are 111 professional researchers, distributed as follows: Ohio 12, Illinois and Virginia seven each, Missouri six, California, District of Columbia, Georgia, Indiana, Kentucky, New York and Pennsylvania five each, Texas four, Arizona, Michigan, New Jersey, South Carolina, Tennessee, and Utah three each, Colorado, Connecticut, Florida, Massachusetts, Mississippi, North Carolina, Oregon, and Vermont two each, Alabama, Iowa, Louisiana, Maryland, New Hampshire, Rhode Island, Wyoming, Canada, and Austria one each.

tains? Well, it may give you a lot of valuable genealogical data. If some of your ancestors lived in any of the counties listed in the 1958 County Directory of Genealogists, it may be that a letter to any of the registrants in that county might aid you in clarifying whatever problem you may have pertaining to them. They may advise you if any families bearing your ancestor's surname are still living there. They may even contact these individuals for you.

Now go to and make the most of the Ninth Annual Exchange Edition. If you don't write letters to some of those interested in the surnames that interest you, this edition will do nothing for you.

Genealogy Takes Conceit Out Of Some

In the July number of the Fort Worth Genealogical Bulletin, the president and "ye olde editor" Mrs. Edna Perry Deckler, who, by the way, is not so "olde" as she pretends, has some fine quotations regarding the importance of genealogy. Without asking her permission we are going to quote some of them in this issue, for which, we hope, she will forgive us.

She quotes from the Tosefta Sanhedrin, "Why did the Creator form all life from a single ancestor?" is the quotation and the answer is, "that the families of mankind shall not lord one over the other with the claim of being sprung from superior stock." This brings to Mrs. Deckler's mind the story told in the NEW YORK GENEALOGICAL & BIOGRAPHICAL RECORD for April 1886, of the proud English nobleman who was fond of saying that he felt sorry for Adam because he had no ancestors.

We are not prepared to dispute the nobleman's statement. However, Luke, the author of one of the four Gospels in the New Testament, claims to know. In Chapter Three he ends a pedigree chart covering sixteen verses in this fashion, "Which was the son of Enos, which was the son of Seth, which was the son of Adam, which was the son of God."

Southern Histories

The Naylor Co., publishers of San Antonio, Texas, has histories of several of the Texas counties, among them Anderson, Eastland, Jackson, Bell, Tyler, Smith, Washington, and Crosby counties. They are selling from four to seven fifty per copy.

1958 Genealogists Exchange

Listed here in alphabetic order are surnames of persons sought by researchers registered in the 1958 Directory of Genealogists. The letter-number combinations refer to the researchers interested in the particular surnames. By turning to the reference the name and address of the researcher in question is obtained. For instance, Baum, J-53, W-90, indicates that two persons are seeking information on the Baum line.

By turning to J-53 and W-90 in the 1958 Directory of Genealogists the names and addresses of those researchers are learned. If you are interested in the Baum line write to those researchers and give them whatever information you have or may desire. Enclose a self-addressed, stamped envelope. Remember that it takes four cents now to send a regular letter and seven cents to send an airmail letter in the United States.

1958 County Directory of Genealogists

The home counties and states of the researchers listed in the 1958 Directory of Genealogists are indicated here. Most of them are amateur and family researchers. Those marked with an asterisk (*) are professional genealogists.

The difference in these designations may not be one of talent. The degree of ability may be just as high in one designation as in the other two. The main difference is that the Professional Researcher devotes his entire time to that pursuit and, therefore must earn his living therefrom. Hence, he requires a stipulated fee per hour or day for his activities.

If you have any research problems in or near any of these counties you may receive some suggestions by writing the one closest to the locality in which you are interested.

When writing always enclose in your letter a self-addressed, stamped envelope for the anticipated reply.

By turning to the registrations or advertisements of the Professional Genealogists, you'll find that most of them do research in adjoining counties and states as well as in their home localities.

New Zealand Has Professional Researcher

New Zealand's first professional genealogist is George F. Howe, 1 Diomede Street, Bayswater, Auckland, who is prepared to assist anybody in compiling records of whatever roots they may have in the land down under.

During the past seven years he has gathered more than 8,000 names of his own kin. He has completed twenty-two chapters of the history of his family.

"A thorough knowledge of genealogical research as affecting New Zealand conditions have been gained through hard work and experience," writes Mr. Howe. "My aim is to satisfy and my fee will be according to the amount of research involved. By sending two dollars or the equivalent with each request little delay will be experienced in obtaining results."

Mr. Howe says that through the Genealogical Helper he has been able "to gain friends in your wonderful country."

Endorses Therapy Idea

Mary Helen Pemberton, 150 W. High St., West Milton, Ohio, who has written some Quaker booklets, heartily endorses the idea of genealogy as a therapy. She writes, "That was the reason for my first interest — and how it has grown over the years."

"Here's More About"

European Poor

(Continued From Page 49)

recognized Churches — Catholic, Lutheran, or Reformed.

To these people, William Penn offered refuge in Pennsylvania. In fact, all distressed of Europe were invited to help settle his new colony. This offer the Mennonites accepted.

The immigration of the Mennonites was absolutely without a plan. From the European ports of Rotterdam and Le Harve, letters were sent back to their loved ones in the Pfalz with details of the trip, recommendations, warnings, and greetings. Upon arrival in the United States they immediately set out to find personal connections and friends where they could find emergency shelter and food to last until they themselves could become established in the new land. The majority of them settled in the farm lands of Pennsylvania, Ohio, and Illinois, with a few traveling as far west as Iowa and the plains of the Midwest. Through the migration of this religious group, many well known American families of today have descended, and their posterity is now spread from the east to west and north to south.

The second section deals with the native Pfalzer and begins immediately after the end of the 30 Years War (1618-1648). The devastation of the long hard war left most of the people poor and homeless. For approximately 50 years the people worked to build up their homeland with slight success. There was little peace in the country and the Pfalzer had a hard, rough life.

Finally when the soldiers left the area, in the year 1708, there came one of the worst winters ever experienced by these people. It was so cold and miserable, it is said, that "the grape vines were destroyed, the wine in the bottles was frozen, and the birds died while in flight and fell lifeless to the ground. From the forests one could hear the crying of the hungry wolf. The children in the empty, cold rooms were frightened and hungry. The poor went from town to town and village to village." The people in the villages murmured, "God has cursed and left the Pfalz". From the cry a reply came to them, "We will help you. On the other side of the ocean is America, a new land, and welcomes strangers. Its mountains and fields are large and not like the small acres you own in the Pfalz. Come, Come all! Across the ocean, to America! There your miseries will end!"

In their arms they gathered their bundles and all the goods they could carry and set out, some on foot, others in wagons and coaches over to the Rhine. From there they traveled by barge to Holland or to Bremen and with the small amount of money they were able to scrape together bought their passage to the New World. The trip then took several months, their food was strictly rationed, and many of them died along the way. It is no wonder that they were so happy upon landing in the New Land. From New York, many of them travelled by canal to Pennsylvania and Ohio and settled this area into Virginia and the midwest country.

The settlement of the Pfalzer and Mennonite from Germany has indeed made a mark on the growth and development of the United States. In the sacrifices and pioneering they have established descendents in every state and community in the great land of America.

Use Plenty Of Chalk

Here is valuable information to those who are interested in getting tombstone inscriptions. Mrs. George Bailey of Richland County, S. C., says, "When we visited some very old graveyards seeking family data, we found it difficult to read the inscriptions on the old, blackened stones. We went to a hardware store, bought large pieces of white chalk, and rubbed them over the stones. This whitened the stones and left the black letters easy to read and to photograph."

Quoted from Josef and Dorothy Berger, DIARY OF AMERICA, (Simon and Shuster, N. Y.. 1957): "In the attics, basements and household catch-alls of America there is an unknown number of old diaries (family papers, letters, Bibles, etc.). We believe the aggregate of these would amount to an important cultural treasure . . . . All such manuscripts ought to be given to the keeping of those best equipped to preserve them and put them to use — that is, the historical societies and public and institutional libraries . . ."

German Minister Explains Vital Statistics System

Families of German extraction may be interested in a description about the early record keeping methods in Germany as explained in a letter from Leopold von Kaltisch, a German clergyman of Ludwigsburg, Wurttemburg, to Walter V. Foust, R. D. No. 1, Schellsburg, Pa., a veteran researcher interested in the Faust, Foust, Foutz families. The letter follows:

My Dear Mr. Foust:

Considerable time has elapsed since your letter was received. A great deal of work has kept me extremely busy. Sincerely I acknowledge the gift of money and thank you for it. Now to your questions.

What is Dekanatamt? It is the next higher rank of the different neighboring localities. It is on the level of the Dean, who is the superior of the various local pastors. In the cities the Dean assumes the activities of the local pastors. He also collects the local church records, and generally controls those records of the earlier centuries. In this connection he also gives information regarding the old records. This is the system employed in Kunzelsau. The service stamp, strange to you, is part of the system.

What is a Kirchenbuch or church book? In this Church Register the pastor records all births, marriages and deaths in his church community. Included in the baptism record are the names of the parents of the child and the witnesses of the baptism. The marriage record consists of the names of the betrothed and those of their fathers. Only the name of the deceased is mentioned in the death record, with the exception that in case of the death of a child. the father's name is also recorded.

The idea of Church Records was first proposed in Wurttemburg about 1558, but the books did not begin until about 1560. However, many Church records were destroyed by fire during the Thirty Years War, 1618-1648, and the French Invasion, 1687-1693. It stands to reason, the present pastor can only give out the information that exists concerning his Church members. The family register was not initiated until after 1808, but often nothing was recorded in it.

Now concerning this family register. Each family had a number for itself, and that was the page number of the family record. Thus in your case — 564. On that page of the Family Register is presented the family of John George Faust, whose name appears after that number. You will also find this same John George Faust as a child by No. 556, who as No. 564 is listed as the father of his family. This is proven by the fact that the birth dates by the two numbers agree. Often the pastors have not known where the children of a particular family of their church membership have lived, if they moved to some place within the city or left the country entirely. The official federal emigration list inWurttemberg was not started unil 1805 and is remarkable mainly for its many omissions. Previously emigrations were very rare and were then listed in the Church records. It is extremely difficult to find persons in the records if their residence locality before the emigration is unknown. Since 1805 the emigration lists have been kept in the state archive in Ludwigsburg, but, as previously mentioned, there are numerous omissions.

Since the Faust family, as you say, already had arrived in America in 1733 or earlier, its problem must be solved through the office of the pastor in whatever city the family lived before the emigration. And the exact locality must be known as it is impossible to conduct the search in each one of the thousands of communities in Wurttemberg.

Throughout Germany are genealogical associations. Some members search cooperatively only for their own families, others search professionally for those unable to conduct such research activities for themselves. President Scholl, whom you mentioned in your letter, has long headed the Wurttemberg association. However, he has recently resigned from that position, and is devoting his time in searching for those who left here in the early centuries. He has asked me to take over your particular search and to answer as far as possible.

The prologue of this is that I have visited the place where the relatives of your Faust family resided in Wurttemberg and have searched the generally difficult-to-read church records. But who can afford to pay the travel and research expenses entailed in such a continuing search? Certainly no one.

So I reiterate that I am willing to cooperate in an effort to find the emigrants and their ancestors. But, please, help me to find some one who knows the exact locality of the town or city in question. This is something that can't be disposed of in lightning-like rapidity. It is a worthy research activity which eventually will be rewarding. Still, it will go faster if I learn the point of contact.

I hope you understand what I have written, and that some one may easily translate it for you. I would be happy to hear from you again, even when you have other questions. I remain,

Sincerely yours,
Leopold von Kaltisch

Book Shows Pioneers Had Real Stamina

A 101-page manuscript of a John Hancock family originating in Virginia about mid-1700s was copied last year and mimeographed under the direction of Wenzola Robinson (Mrs. G. O.) Kiger, 117 East Tenth Street, Chattanooga, Tenn.

It tells the story of John Hancock born in 1733, who married Elizabeth Maddux in Goochland County, Va., in 1755. They had four sons and six daughters, Benjamin, Lewis, William and Major Hancock, Nancy Corn, Rodice Lane, Elizabeth Mayo, Judath Mayo, Susannah Hancock ,and Mary Morrison. John had four brothers and three sisters also living for a tim ein Tennessee, Major, Thomas, Stephen, George, Elizabeth, Marianna, and Judith.

Benjamin, the son of John and Elizabeth Hancock, married Anna Corn in 1780. They had seven sons and four daughters, only one son of whom remained in Virginia. The rest of them moved to Tennessee, Ohio, Alabama, and Arkansas.

Over the years most of the descendants of John and Elizabeth have had large families and have moved into many states. Among the families now related to the Hancock family are Rule, Smith, Turner, Spurlock, Haynes, Ryan, Young, Richeson, Holland, Booth, Morgan, English ,Price, Walker, Hane, Street, Zeigler, Robinson, McCall, Hopkins, Spencer, Sterne, Meade, Eustace, Rountree, Harris, Caperton, Rushbrooke, Harvey, Clayton, Edwards, Witt, Light, Emerson, Odom, Adams, Markum, and many others.

A few paragraphs in the history of one of the descendants born in about 1803 shows the stamina of the individuals and the conditions then existing. "Land was very cheap when he settled in Tennessee, and he was right in thinking that land was a good thing to invest money in. Tradition says he would sometimes exchange a wagon and team for a farm, when one of his neighbors became dissatisfied and wanted to move. He owned quite a number of slaves, and had several thousand dollars loaned out. He was quite a wealthy man for his day.

"He had his blacksmithing done in a shop of his own; ground his corn and wheat in a mill of his own, run by horse power; had the leather tanned, out of which he made their shoes; the goods to clothe both white and black families were carded, spun, and woven at home. He had to pay out a few dollars each year for sugar, coffee, salt and iron.

"He had money by saving money as well as by the increase in the value of his land and slaves, and interest on his money. He came as nearly living independent of the rest of the world as any man ever did. Yet, the needy were seldom turned from his door without as-

ANNUAL EXCHANGE INSTRUCTIONS FOR REGISTRANTS

HOW TO COUNT YOUR WORDS, NAMES, DATES, ETC.

A registration is an advertisement in the Annual Exchange Edition of THE GENEALOGICAL HELPER, in which researchers describe as far as possible, persons they wish to have identified.

Your name, address and five other words cost $1.00. Additional words, names or dates cost 7 cents each. However, two deductions may be made — (1) a deduction of 50 cents, if the registrant is a subscriber to THE GENEALOGICAL HELPER — (2) a deduction of 50 cents if the registration is typewritten.

Here are two examples of how to register, count your words, names, dates, etc., and figure the cost for registering in the Annual Exchange Edition. In the examples given below, the numbers in parenthesis over the words are only to show you how to count the words, names, dates, etc. These need not be placed on your registration blank. Just count each word, abbreviation, name and date in figuring your cost. Surnames should be capitalized or underlined.

EXAMPLE NO. 1

John Doe
123 North Humble
Hill City, Nebr.

(1) (2) (3) (4) (5) (6) (7) (8) (9) (10) (11)
has data to exchange on: HUFF, (Mass, Nebr); John JONES m.
(12) (13) (14) (15) (16) (17) (18) (19) (20)
Ann SMITH (Elizabeth Tp., Pa.) 1810; Joseph BROWN d.
(21) (22) (23) (24) (25)
Aug. 4, 1700, (Reeding, Mass.)

A total of 25 words, names and dates are included in this registration. The name and address of the registrant and five words cost $1.00. The extra 20 words cost $1.40 (20 x 7c—$1.40). So the cost of this registration is $2.40, if John Doe is not a subscriber to THE GENEALOGICAL HELPER and the registration is hand-written. If a subscription order for one year or more accompanies the registration, 50 cents can be deducted. Another 50 cents can be deducted, if the entry is typewritten, thus reducing the cost to $1.40.

Assuming John Doe is a subscriber and has typewritten his registration this is how he would figure the cost:

Cost of listing your name, address and five words (see deductions below		$1.00
Extra words, names and dates, to be paid for	20	
Cost per extra word, name or date $.07 each	X.07	
Total for extra words, names and dates		$1.40
Total cost of registration (see deductions below)		$2.40

DEDUCTIONS

If this registration is typed - deduct 50 cents	$ .50
If you are an active subscriber to THE GENEALOGICAL HELPER or enclose your subscription herewith - deduct 50 cents	$ .50
TOTAL (after deductions, if any)	$1.40

EXAMPLE NO. 2

William Smith
456 West Arlington
Stratford, Ohio

(1) (2) (3) (4) (5)
GREEN (Tenn.); PETERSON 1801, (Va.)

This registration (name, address and five extra words) costs $1.00 if William Smith is not a subscriber to THE GENEALOGICAL HELPER and the registration is hand-written. If a subscription order for one year or more accompanies the registration the cost is 50 cents. If the registration is typed, another 50 cents, may be deducted, making the registration free of charge.

EXAMPLE NO. 3

Mrs. Martha South
937 Hatfield Drive
Thompson 2, Ariz.

Data to exchange: GASPERSON, WOODY, BURNETT, Rutherford and Burke Cos., N.C., Tenn., Mo., WORLEY, Ala.

A total of 15 words, names and localities are included in this registration. The name and address of the registrant and five words cost $1.00. The extra 10 words cost 70 cents (10 x 7c—$.70). So the cost of this registration is $1.70, if Mrs. South is not a subscriber to THE GENEALOGICAL HELPER and the registration is hand-written. If she is a subscriber or a subscription order for one year or more accompanies the registration, 50 cents should be deducted. Another 50 cents can be deducted, if the entry is typewritten, thus reducing the cost to $.70.

WHY REGISTER?—WHY ADVERTISE?

Why should you register? Why should you advertise in the Annual Exchange Edition of THE GENEALOGICAL HELPER the names of your ancestors you are trying to find? Because one of the easiest and quickest ways to find the information you are seeking is to explain your desires in this issue. Thousands of people interested in genealogy just as you are meet in the columns of this magazine. If your problems are no more difficult than others that have appeared here in the past you may be reasonably sure that someone will come along and offer you the information you are so eager to possess. They will be more than willing to exchange with you whatever records they have pertaining to your lines. That is why the September issue of THE GENEALOGICAL HELPER is called the Annual Exchange Edition.

As a genealogical researcher you know that it doesn't take many generations until you are just about related to every other family. Many researchers who over the years have used our columns and facilities to trace their ancestry know how in the past ten years they have found several researchers working on two or three or more lines akin to their own lines. We know for a reality that there are some who have extended their pedigree as far as thirteen generations from the information they have received from the Exchange Edition. Others again have extended their lines from three to seven generations. Of course, no one can guarantee that you or any one will duplicate that again. But, since it has been accomplished in the past, there is a possibility it may happen to you also. You'll never know until you try. The cost is so small that even if you should not be able to find the information, you would not be hurt financially.

Even if you should not hear from anyone immediately after the publication of the Annual Edition, don't be discouraged. It has happened in the past that the information has not been forthcoming until two or four or six years after the registration appeared in the Annual Edition. Let us explain how that may happen. Every year more people become interested in research work. They hear of the help others have received from our publications. They purchase a Handy Book for Genealogists. They purchase some of the available back numbers of the Annual Editions and discover to their astonishment that years ago one or two or more researchers had been interested in their very own lines. These people may live in various parts of the nation, but they are still connected with the family from several different branches which eventually run into the main trunk. They write to the people at the address given in the old Annual Edition and, as luck will often have it, they still live at the same address. There is nothing quite so thrilling as to find a member of our family, whom we had never before known! To correspond with them is a genuine feast. They can tell you things about the family that you never before knew, and you can tell them things that have been unknown to them.

Four brothers may have come to America from their native country, say in about 1840. After living in the same community in Pennsylvania for a few years, one after the other decides other sections may offer more opportunities to new settlers and so they leave for the beckoning field. One may go to Indiana. Another may go to Texas a little later. And still another still later may go to California, while the fourth remains in Pennsylvania. As years slip by little or no correspondence is kept up among the four families. The third or fourth generation may know nothing at all or very little about the families descended from their grandfathers' or great grandfathers' three brothers. But among the descendants of each of the brothers may be one who becomes interested in genealogy. In their search they find the story of how the four brothers came to America, but they have no idea where to find any of the descendants now. They learn about THE GENEALOGICAL HELPER, send their problems to the Annual Exchange Edition, and lo, and behold, the families of the four brothers become re-united. Each case may be just a little different, but in the main, that's about the story we have heard repeated over and over again, as they have sung our praises for bringing the families together again.

If you have never tried the Annual Exchange Edition, you may be more than surprised to find out the results that most often occur. We are sure you will never regret trying it. Thousands of researchers have done so over the years and are still using this medium in their research activities.

Military Man Is Experienced Genealogist

After eleven years of intensive research, Lt. Col. Eugene E. Skinner of the United States Air Force, some time ago finished a 223-page mimeographed genealogy which he has titled, MEET THE FAMILY. Col. Skinner, whose permanent address is 4815 East Side Ave., Dallas, Texas, says that the compilation . . . "of course, is not complete, nor finished, as genealogies never are. It is not for sale, and there are a very limited number of copies. Copies have been placed in several genealogical libraries."

The present is an expanded edition of THE ANCESTRY OF CAROLYN GAIL SKINNER, which was published by Col. Skinner in mimeograph form in 1950. Carolyn Gail is the daughter of Col. Skinner. He explains, "Before Carolyn was born, I decided that the expected child might possibly be interested in its ancestry, and that it would be a good idea to collect as much as possible before some of the older relatives passed away. As the collection continued, I became more interested in it — not as important, but as a challenge or personal detective case. I did not realize the gigantic proportions it would assume. The earlier publication resulted in my designation as a "Fellow" in the Institute of American Genealogy.

"Research is continuing along a number of these lines, and it is quite possible that more will be added later on — I have added two children of my own. Kent Eugene and Barbara Ruth. The material here is the result of considerable expense, an unbelievable number of hours of work, and a large number of trips to county courthouses, dusty cellars, and libraries."

MEET THE FAMILY is a compilation of forty-six family sections arranged alphabetically. Each section is numbered individually. The names of the families included are Arnold, Baker, Barton, Becker, Bickley, Brooks, Calvert, Cannon, Canterbury, Coleman, Day, Doggett. Fitzwalter, Flippin, Frith, Golding, Griffis, Groves, Hamilton, Harley, Horger, Humphries, Jacks, Jones, Kincheloe, McGonagill, McGowan, McPherson, Moore, Morgan.

Overton, Jaine, Pugh, Ragland, Russell, Santy-Flippin, Shearer, Sherrill, Skinner, Stevenson, Stinson, Trotti, Weakley, Wickliffe, and Williams.

Individuals interested in any of these families are invited by Col. Skinner to compare notes with him to see if there is any connecting link.

A copy of MEET THE FAMILY is now on the shelves of the Cache County Genealogical Library in Logan, Utah, where it may be inspected by all those who are interested in comparing their family data with that assembled by Col. Skinner.

Dutch Society Is Aiding Many To Find Needed Family Data

The Dutch Genealogical Society (Nederlandse Genealogische Vereniging, Postbox 976, Amsterdam - C) was founded in 1946 as a result of the activities of five close friends, who profited by the fact that many Dutchmen started genealogical ambitions in wartime, when they were forced to remain at home. Their idea was well chosen. In a short time the society increased in activity until now it is the largest of its kind in Holland.

Stimulates Genealogical Interest

The society stimulates the science of practical genealogy, heraldry and associated items among all interested people — professionals as well as amateurs. It is organized not only for the Netherlands, but for all Dutch-speaking sections of the world. Wherever there are Dutch people, they are encouraged to form branches of the society. Holland, now as always, is a country of trade, and Dutchmen are scattered all over the world. The society is endeavoring to promote a system of exchange of data between the researchers in the world. The easiest way possible to do this is employed.

To facilitate genealogical research the society established several services for their members.

The Contact Service

Of great importance to all, even to those who have conducted research for years, is the so called Contact Service. Other researchers may have been busy for years gathering material on your particular line and may have an immense amount of data unknown to you. For instance, in the organization's card file have been entered more than 75,000 families with notation as to names, old and new addresses, and names of members who can supply the necessary data. For instance, suppose one of your ancestors formerly lived in Leiden. You would fill in a registration card, obtainable at the organizations contact-service. Immediately on receipt of this card, the organization would forward it to the member who has the necessary family data. In this way many problems can be solved and pedigree charts enlarged. The company is glad to send detailed directives to those interested in this service.

Documentation Service

Tens of thousands of card indexes detail information about families, photos, and varied notices. Considerable family data collected from historical and biographical volumes is also part of this service, including heraldic certificates, etc.

A Question Service is also maintained, with addresses of all kinds of institutes and professional genealogists in Holland and other countries. Those interested may obtain a catalogue of books now in the Library of the organization. This is divided into eleven sections located at Amsterdam, Arnhem, Breda, Eindhoven, Groningen, Haarlem, The Hague, Hilversum, Leiden, Rotterdam and Utrecht. Sections are also under preparation at Limburg, Twente, Zeeland and Vlaanderen.

The organization also publishes a monthly magazine, GENS NOSTRA (OUR RACE) containing about 300 pages per year. Persons living in the territory covered by the Cache Genealogical Library may inspect copies of the magazine by contacting the Librarian.

sistance. He did not risk things in order to make money, but he accumulated property without seemingly any special effort to make money."

Some day some one will make an index of the many names in the book which then will be of greater help to researchers than it is at present. However, Mrs. Kiger is to be heartily congratulated for the splendid work of making it possible for genealogists to have access to this valuable family history. We thank her sincerely for the copy she has presented to the Cache Genealogical Library. It is to be hoped that some of the Cache Valley Hancock families are descendants of John and Elizabeth Maddux Hancock.

Skinner Record Is Now Off Press

Volume One of the second series of THE SKINNER KINSMEN has been compiled and mimeographed by Mrs. Charles G. Rummel, 133 Abingdon Ave., Kenliworth, Ill. It is a compilation of the descendants of Richard Skinner of North Carolina. Apparently he was born in England in 1615 and came to the Isle of Wight, Va., before 1677. Present-day records seem to indicate that Richard left London, England, in 1635.

However, the particular Richard Skinner, whose descendants are enumerated in this record, is believed to have been born in Virginia and came to North Carolina in 1701 where he lived for the next twenty years.

The book contains 78 pages, the last eight of which contain a well-arranged index, without which any genealogical record is considerably handicapped.

North Western Researcher Is Compiling Genealogical Data On Many Family Lines

An intensely interesting brief family history showing lines of Revolutionary soldiers and European royalty has been compiled and published by Brian Llewellyn Young, 11918 Interurban Avenue South, Seattle 88, Washington. The twenty-two pages, 8½ x 11, have been mimeographed on both sides of the exceptionally good grade of paper.

Beginning with a brief paragraph of statistics about himself, Mr. Young has short paragraphs of data about his parents, grandparents and great grandparents down to the twentyfirst generation on some lines. Among hese are American, English, Swedish, German, Swiss, and Holland ancestors.

Nothing But Hard Work

In the introduction, Mr. Young says, "I have no short-cut to offer in working out your family lineage. Perseverance is the one attribute that a genealogist must have in order to be successful in his or her quest."

Mr. Young explains that the pamphlet contains only a minute part of the data he has gathered over the years in anticipation of publishing a real biographical record of his ancestors later. In the meantime Mr. Young anticipates to publish separate genealogies on the Young, Martz, Shay, Shoop-Shupe-Shoup, Fitch, Crist-Christ, Stockbarger-Stockberger-Stockburger, Addis and Stephens families. He invites all who are interested in any of these lines to write him.

Research Since 14-Years-Old

In forwarding the pamphlet, Mr. Young explains his genealogical activities in an interesting letter, in which he says, "I am enclosing a copy of a booklet which I recently had printed with the idea that perhaps the information contained therein would bring me closer to members of the families with which I am allied. I am in the process of compiling Family Histories and Genealogies on several families. You may think me an overly ambitious chap since I am doing research on many families instead of sticking to one family as so many do. Well, I started my research at the age of 14 ,and I have been at it now for 26 years and figure that I am still young enough to be able to finish what I have started.

"I am particularly interested in locating those who are working on a Young family who originated in Maryland or Virginia early in the 17th or 18th centuries, and especially in those who have a Young descendant in their records with the given name of Edwin or Sinnett, two given names that have been passed down in even the female branches of the descendants. Does anyone have any information regarding a John Young who married a Christiana Bruce, or a Christian Sinnett? Christiana Bruce was a daughter of George Bruce II, son of George Bruce I, early settler in Virginia from Scotland, and purported to have been descended from the same family as Edward, Baron Bruce of Kinloss, who was the father of CHRISTIANA BRUCE, b. Dec. 28, 1595, died June 16, 1674, (Lady Devonshire), who married WILLIAM CAVENDISH, 2nd Earl and Lord of Devonshire, who was an early friend of the Colony of Virginia.

Many In The South

"The Shupe-Shoup-Shoops seem to have originated from immigrant brothers. Most of them settled originally in Penn., in Westmoreland, Allegheny, Dauphin, and perhaps other counties of Penn., and at least one in Maryland. It seems later that the Westmoreland Shupe-Shoops migrated into Montgomery, Wythe, Smyth, Grayson and Washington counties, Virginia, and from there into North Carolina and West Virginia. One important branch of the Virginia Shupes joined the Church of Latter Day Saints before 1846 in Virginia and migrated across the country with the Mormons to Utah, where they still live. I have important records of the Shoup-Shupe-Shoope family, and I urge all those interested in this family to get back of me in compiling this family genealogy for publication. Of the nine above-mentioned families which I am compiling genealogies, SEVEN of them have never had any semblance of a genealogy published up to this time, and it is important that someone take on this task — and I have appointed myself the one to do it.

The Shay family stems from Timothy Shay, b. 1756, who died in Sandyston, Hainesville, Sussex Co., N. J. in 1837, supposedly born in Ireland, but I believe he may have come to N. J. from Virginia. The Stephens line I am compiling is that of Richard Stephens of Mt. Olive, N. J., born Feb. 22, 1732 in Penn., who seems to have been a son of Joshua Stephens, and a brother of Joshua, Jr., b. 1733, of whom a genealogy has been published several years ago. The Martz genealogy starts with SEBASTIAN MARCH, of Tenth Legion, Rockingham Co., Va., who died after 1815, and whose descendants spell the name Martz. It is thought that Sebastian first lived in Maryland before coming to Virginia; perhaps in Frederick Co., where a Bastian Mersch married a Magdalen Burghard on March 5, 1762. Sebastian was probably foreign born.

Correspondence Invited

"The Fitch Genealogy has to do with the descendants of Thomas Nelson Fitch, born Feb. 1, 1806 at Cooperstown, Otsego Co., New York, who md. 1st, Nov. 5, 1829, LUCY BALDWIN, probably a descendant of an AARON BALDWIN, but the question is, which one? She is supposed to have been born Feb. 20, 1806 in Bradford Co., Penn., but Bradford Co., was not formed until 1810. She died, Oct. 1850 at Lafayette, Stark Co., Ill. Thomas Nelson Fitch was son of Elijah, Jr., son of Elijah Sr., son of James, son of Thomas Fitch III, son of Thomas and Ruth (Clark) Fitch II, son of Thomas and Anne (Reeve) Fitch.

"The Stockberger-Stockbarger,Stockburger genealogy has to do with the descendants of the Stockberger brothers, some of whom first settled in Bedford (later Westmoreland) County, Penn. Two of the brothers were Matthias and Michael.

"The Crist-Christ genealogy has to do with all of this name who originated in the State of Penn., especially Cumberland Co., Penn.

"The Addis genealogy has to do with the descendants of John Addis, born 1687 in England, settled in Northampton Twp., Bucks Co., Penn., where he died 1745 leaving ch.: John, Richard, Mary, Nehemiah, Joseph, Bridgett and Jane.

"Any persons who have any information regarding these families, or who are allied with them, are urged to contact me with a view toward collaboration on the family lines."

Who Can Give Aid On Bordeaux Line?

Through the Ulster-Scot Historical Society and the Scots Ancestry Research Society in Edinburgh, Mrs. J. Thomas Bell of 11654 Sasanqua Lane, Dallas, Texas, has received some valuable family data. Now she is turning to England to search on her lines there. She is particularly interested in getting some help where to find her BORDEAUX line. Says Mrs. Bell, "It has me and two searchers stymied. But, then, that is what researching holds — waiting. I might add that I have been able to trace down three of my four family crests in the library and have proceeded to paint them on china. They make quite an impressive collection now."

Stearns Records

Those interested in the Stearns family of early New England history should contact Donald E. Stearns, civil and sanitary engineer, whose address is P. O. Box 266, Cazenovia, N. Y. About five years ago Mr. Stearns came into possession of about a dozen volumes of "Stearns Genealogy and Memoirs," published in 1901. There are two volumes of the work. Volume 1 contains 744 pages and Volume 2 531 pages.
